

MT. WASHINGTON HOTEL & CONFERENCE CENTER

Baltimore | Maryland

As beautiful as it is convenient, the Mt. Washington Hotel & Conference Center joined the Aramark family in 2003 as part of our partnership with Johns Hopkins University. The venue hosts both business affairs and social events. About 45 percent of the business is related to Johns Hopkins.

Our scope of services at Mt. Washington ranges from overseeing hotel operations to providing delicious dining through catering and the on-site café. Our world-class service, innovative technology, and management expertise ensure that every guest, whether there for business or pleasure, enjoys a productive, relaxing experience.

“As a long-term customer (working for two organizations) over the last 10 years, I have been impressed by the available spaces, food, and amenities. As good as these are, your upbeat, competent, flexible staff make it my first choice.”

—Jeb King, LifeBridge Health

“The venue was beautiful, the room was the perfect size, and the food was delicious and plentiful. All the attendees raved about the food and couldn’t believe there was even more food when the afternoon snack was set up. It was truly a great experience.”

—Jennifer Sauer,
Johns Hopkins University
School of Medicine
